SUBJECT: Technical & Security Assurance Package — API Integration Counterparty Notice

Dear Valued Partner,

We are pleased to present this formal Technical and Security Assurance Package on behalf of **Alshumookh Global Banking Financing and Credit**, in connection with our proposed API-to-API settlement integration. This letter, together with the attached documentation, is intended to provide you with complete transparency regarding our platform's technical architecture, active security controls, and compliance roadmap.

Our platform is fully operational on a dedicated production domain and has been designed from the ground up to meet institutional-grade API integration requirements. Each section below addresses a specific area of technical and operational assurance in detail.

01	PLATFORM STATUS & PRODUCTION ENVIRONMENT
Platform URL	https://api.alshumookh-pay.com
Ingest Endpoint	POST https://api.alshumookh-pay.com/api/v1/payloads/ingest
Schema Endpoint	GET https://api.alshumookh-pay.com/api/v1/payloads/schema (publicly verifiable)
OAuth2 Token	POST https://api.alshumookh-pay.com/api/v1/oauth/token
Receiver Wallet	0xBD682cfD8382a90adfDd6745780D3D7959c4d939
Network Support	ERC-20 (Ethereum Mainnet) TRC-20 (Tron)
On-Chain Verifier	Alchemy RPC — Ethereum / Base mainnet
Payment Provider	MoonPay Commerce — hosted payment links
Domain & TLS	HTTPS active on https://api.alshumookh-pay.com — TLS 1.3 / HSTS enforced

02

ACTIVE SECURITY CONTROLS — ALL IMPLEMENTED & VERIFIED

Security Control	Technical Detail	Status
HMAC-SHA256 Payload Signing	X-Signature: HMAC-SHA256(timestamp + body). Enforced per client.	Active
OAuth 2.0 Authentication	client_credentials grant. Bearer tokens with expiry enforced.	Active
JWT / JWS Verification	Detached JWS — RS256/HS256 via PyJWT. Payload hash in claims.	Active
mTLS Certificate Support	X-Client-Cert-Fingerprint verified at application layer.	Active
Signed Webhook Callbacks	All outbound callbacks HMAC-signed. Inbound providers verified.	Active
Reconciliation Engine	POST /admin/reconcile — full audit trail per payload.	Active
WAF & Rate Limiting	IP auto-ban, user-agent classification, path-probe detection.	Active
Replay Attack Protection	X-Timestamp validated ± 5 min window. Idempotency-Key enforced.	Active
Transport Security	TLS 1.3, HSTS, CSP, X-Frame-Options, X-Content-Type-Options.	Active
IP Whitelist	Per-client allowed IP ranges enforced at gateway layer.	Active

03

SENDER-FACING TECHNICAL PROOF — VERIFIABLE NOW

Proof Item	How to Verify	Availability
Live API Schema	Open in browser: GET https://api.alshumookh-pay.com/api/v1/payloads/schema	Confirmed
HMAC Signed Request	Sample payload with computed X-Signature	On request
OAuth2 Token Flow	Sample client_credentials exchange with test keys	On request
Wallet Ownership Letter	Management-signed declaration — see Section 04	Confirmed
Low-Value Test Transaction	Sender submits payload; platform returns result	Recommended
MoonPay Payment Link	Demonstration of hosted payment link creation	On request
Alchemy TX Verification	Live tx_hash verification result from Ethereum RPC	On request

04

FORMAL WALLET OWNERSHIP DECLARATION

We, Alshumookh Global Banking Financing and Credit, formally declare and confirm:

Receiver Wallet Address:

0xBD682cfD8382a90adfDd6745780D3D7959c4d939

Network: ERC-20 — Ethereum Mainnet

This wallet address is the sole authorised receiving address for all settlement transactions processed through our platform. Any transfer directed to a different address has not been authorised by Alshumookh Global Banking Financing and Credit.

This declaration is made by the undersigned authorised officer of the company and is binding as of the date stated on this letter.

Ahmed Mohamed

Chief Executive Officer

Alshumookh Global Banking Financing and Credit

Date: May 12, 2026

Company Stamp / Seal

05

RECOMMENDED PILOT TRANSACTION PROCEDURE

We strongly recommend a low-value end-to-end test transaction before any high-value settlement. This confirms full integration readiness on both sides with zero financial risk.

Step	Action	Party
01	Submit test payload to POST https://api.alshumookh-pay.com/api/v1/payloads/ingest with verified tx_hash	Sender
02	Platform validates auth, HMAC, schema, and verifies tx_hash on-chain via Alchemy	Automated
03	Platform returns review/verification status response with payload ID	Automated
04	Sender receives HMAC-signed webhook callback confirming receipt and status	Automated
05	Both parties review reconciliation report and confirm end-to-end success	Joint
06	Upon pilot confirmation, proceed with full-scale settlement operations	Both parties

06

COMPLIANCE & CERTIFICATION ROADMAP

The following certifications are actively being pursued. Our platform is fully operational during this period, consistent with standard fintech launch practice.

Certification	Purpose	Timeline
Penetration Test Report	Independent API, WAF & auth security validation	Week 1 — In progress
PCI-DSS Scope Memo	Card data handled by MoonPay — out of scope memo	Week 2 — Preparing
AML / KYC Policy Pack	Onboarding, screening & transaction monitoring policy	Month 1 — In progress
SOC 2 Type I	Point-in-time independent security audit	Month 2-3
ISO 27001 Readiness	ISMS policies, risk register & control mapping	Month 3-4
VASP / Regulatory Review	Legal classification of digital asset activity	Legal counsel engaged
SOC 2 Type II	Extended audit proving controls over time	Month 6-12

07

DOCUMENTS ATTACHED TO THIS ASSURANCE PACKAGE

Document	Contents	Status
Sender Technical Integration Guide	API specs, security architecture, JSON schema, HTTP examples & workflow	Attached
Transaction Workflow Diagram	12-step visual flowchart — onboarding to settlement finality	Attached
Client Information Sheet (CIS)	Receiver details, wallet, compliance, execution procedure & confidentiality	Attached
HMAC Signed Payload Sample	Working example with computed X-Signature for integration testing	On request
OAuth2 Token Exchange Sample	client_credentials flow with sample response and headers	On request

We are fully committed to a transparent, secure, and professional integration process. We welcome any technical questions, a live API demonstration, or a preliminary test transaction at your earliest convenience. Please do not hesitate to contact us directly.

Email	ceo@alshumookhgroup.ae
Platform	https://api.alshumookh-pay.com
Address	API World Tower, Office 2103/2104, Shaikh Zayed Road, Dubai, UAE

Yours sincerely,

Ahmed Mohamed

Chief Executive Officer

Alshumookh Global Banking Financing and Credit
