FORMAL TECHNICAL RESPONSE

RE: ASIG-HIPC-TECH-2026-v5 | HIPERCAPITAL FINANCE Integration

Subject:	RE: Technical Integration Response — ASIG-HIPC-TECH-2026-v5
To:	Eleazar José Santana Díaz — CEO & Founder, HIPERCAPITAL FINANCE
From:	ALSHUMOOKH GROUP — ASIG Technical Operations
Reference:	ASIG-HIPC-TECH-2026-v5
Date:	11 June 2026
Classification:	STRICTLY CONFIDENTIAL

Dear Mr. Santana Díaz,

Thank you for your comprehensive response to the ASIG Technical Integration Roadmap v5.0 (ref: ASIG-HIPC-TECH-2026-v5). We have reviewed your position on all four blockers and your proposed 12-week integration timeline. We are pleased to provide our formal response below, addressing each of your five information requests in sequence.

1. ASIG TECHNICAL CONTACT & ONBOARDING PORTAL ACCESS

Your designated technical contact for this integration is as follows:

- Contact Email: remooz.cbl@gmail.com
- ASIG Gateway: https://api.alshumookh-pay.com
- Dashboard Portal: Available upon completion of onboarding formalities

Sandbox and testnet credentials will be issued following receipt of your signed onboarding agreement and AML/KYC documentation package. All technical queries must be directed to the contact email above.

2. BLOCKER 1 — REGULATORY: FinCEN / FINTRAC FOR PHASE 1

We confirm the following phased regulatory acceptance policy:

- **Phase 1 — Testnet / Sandbox:** FinCEN MSB and FINTRAC registration are accepted as the minimum AML threshold for Phase 1 sandbox access. You may proceed with Sepolia testnet integration while your EMI license application is in progress.
- **Phase 2 — Production:** Full production access requires either a granted EMI license (Lithuania, Georgia, or equivalent EU jurisdiction) or a formally appointed FCA-authorized correspondent partner for UK-related activities. Production API keys will not be issued until this condition is satisfied.

Please notify ASIG immediately upon EMI license approval to expedite Phase 2 onboarding.

3. BLOCKER 3 — RESERVE AUDIT: TIER 2 VS BIG 4 REQUIREMENT

Our audit requirements per integration phase are as follows:

- **Phase 1 — Limited Production:** A Tier 2 accredited audit firm is acceptable for the initial reserve certification. The audit report must confirm segregation of client funds and reserve adequacy.
- **Phase 2 — Full Production (unlimited volume):** A Big 4 firm (Deloitte, PwC, EY, or KPMG) is required for annual reserve certification. This requirement may be waived for regulated entities holding an active EMI license from a recognized EU regulator.

Please engage your chosen auditor and submit the reserve certification as part of your Phase 1 compliance package.

4. TESTNET API KEY — SEPOLIA INTEGRATION (Chain ID: 11155111)

A dedicated testnet API key scoped to the Sepolia environment will be issued to your registered egress IP (173.249.21.48) upon receipt and review of:

- Signed ASIG Integration Agreement
- AML / KYC documentation package — FinCEN MSB + FINTRAC program documentation
- Corporate verification — ELJOSD GLOBAL FINANCE LTD (Companies House No. 15200357)

Expected issuance timeline: within 3 business days of document receipt. The testnet key will be rate-limited to 50 req/60s and scoped exclusively to the Sepolia test network. Please prepare your 10 test payloads as outlined in your Week 9–12 integration timeline.

5. ASIG TRON RECEIVER ADDRESS

ASIG supports USDT-TRC20 settlement on the TRON network. Our official TRON receiver address will be communicated to you via a secure encrypted channel upon completion of Phase 1 onboarding formalities. This address is not published publicly for security and compliance reasons.

Important: For the initial integration phase, ALSHUMOOKH recommends using Ethereum Mainnet USDT ERC-20 as the primary settlement channel, consistent with your confirmed position on BLOCKER 4.

SUMMARY — PENDING ACTION ITEMS

Action Item	Required Action	Responsible
AML / KYC Documentation	Submit full package to ASIG	HIPCF
Signed Integration Agreement	Sign and return to ASIG	HIPCF
Reserve Audit Certificate	Engage Tier 2 auditor; submit certificate	HIPCF
HCEURO → USDT Bridge	Deploy on Ethereum Mainnet — Week 5–6	HIPCF
Egress IP Registration	IP 173.249.21.48 — formalised on onboarding	ASIG / HIPCF
Testnet API Key (Sepolia)	Issued by ASIG after document receipt	ASIG
EMI License	Lithuania / Georgia — application in progress	HIPCF

We look forward to a successful, compliant, and technically rigorous integration with HIPERCAPITAL FINANCE. Please do not hesitate to contact our technical team for any further clarification or to arrange a technical alignment call.

Yours sincerely,

ALSHUMOOKH GROUP

ASIG Technical Operations Division
