1. Executive Summary

The **SIG Token** (AI Shumookh Investment Group Token) is an ERC-20 utility token built on the Ethereum blockchain, issued by **AI Shumookh Group** — a diversified conglomerate headquartered in Dubai, UAE with offices in London, UK. Established in 2012, the Group operates across gold trading, investment, real estate, banking & finance, commercial brokerage, and businessmen services.

SIG serves as the official digital currency of the AI Shumookh ecosystem. It enables profit distribution, asset tokenization, and direct participation in the Group's revenue streams. Token holders benefit from automated on-chain profit sharing through the proprietary **SIG Profit Distributor** smart contract, with full transparency on the Ethereum blockchain.

This whitepaper outlines the token's purpose, economics, technical infrastructure, launch strategy on Uniswap, and the marketing roadmap to build a global community around the AI Shumookh ecosystem.

Key Highlights

- Real company backing: AI Shumookh Group — 14 years in operation
- Ethereum ERC-20 token with full on-chain transparency
- Automated profit distribution via proprietary smart contract
- 10 Billion fixed supply — no further minting possible
- Uniswap V2 listing with locked liquidity for community trust

2. About AI Shumookh Group

AI Shumookh Group of Companies was established in 2012 with a clear mandate: to provide comprehensive commercial, investment, banking, credit, and property management services across the Middle East and beyond. The Group has grown into a trusted multi-sector conglomerate with a presence spanning the UAE, the United Kingdom, and international markets through its gold trading and investment network.

2.1 Group Companies

Company	Core Business Area
AI Shumookh AI Raeda Investment LLC	Gold trading, commodity investment, multi-sector portfolio management
AI Shumookh Global Banking, Financing & Credit	Conventional & Islamic finance, syndicated loans, project finance, credit advisory
AI Shumookh Real Estate Broker	Property brokerage and management across UAE
AI Shumookh Global Exhibition Organizing	International trade exhibitions and event management
AI Shumookh Commercial Brokers LLC	Commercial trade brokerage services across sectors
AI Shumookh AI Raeda Businessmen Services	Corporate support, PRO services, and business setup in UAE
AI Shumookh Group Limited	International holding entity overseeing global operations

2.2 Recognition & Awards

- **Taqdeer Award 2022** — Dubai Government recognition for outstanding business excellence
- **Global Women Leadership Awards 2022** — Chairlady Fatma Lutfi honored internationally
- **International Fashion Gala Dubai** — Featured participant and sponsor
- **Gold Network:** Supply chain spanning Ghana, Tanzania, Mali, Cameroon, Sierra Leone, and Guinea Conakry
- **Gold Capacity:** 1,500 to 5,000 kg per month at 92–96% purity Dore bars

2.3 Office Locations

Location	Address
Dubai Headquarters	API World Tower, Office No. 2103-4, Sheikh Zayed Road, Dubai, UAE
London Office	167-169 Great Portland Street, 5th Floor, London W1W 5PF, UK

3. SIG Token Overview

SIG is a utility token that serves as the backbone of the AI Shumookh digital ecosystem. It is designed to connect the Group's real-world business activities with blockchain technology, enabling transparent profit sharing, asset tokenization, and community participation in the Group's growth and revenue streams.

3.1 Token Details

Parameter	Details
Token Name	AI Shumookh Investment Group Token
Token Symbol	SIG
Blockchain	Ethereum Mainnet
Token Standard	ERC-20
Total Supply	10,000,000,000 SIG (10 Billion) — Fixed, no additional minting
Contract Address	0xc2ac880e474c3576cc3afb7c560e402ce24d5b37
Decimal Places	18
DEX Listing	Uniswap V2
Verification	Etherscan — etherscan.io/token/0xc2ac880e474c3576cc3afb7c560e402ce24d5b37

3.2 Token Utility

Utility	Description
Profit Distribution	Receive automated on-chain profit distributions from AI Shumookh Group revenue streams
Asset Tokenization	M1 Tokenization system converts real-world monetary assets into SIG-backed digital tokens
Investment Access	Priority access to exclusive AI Shumookh Group investment opportunities
DEX Trading	Freely tradeable on Uniswap and decentralized exchanges globally
Ecosystem Payments	Primary currency within the AI Shumookh digital management platform
SWIFT Integration	Linked to international SWIFT payment infrastructure for cross-border settlements

4. Token Economics (Tokenomics)

The total supply of SIG is permanently fixed at **10 billion tokens**. There will never be additional minting beyond this cap, ensuring deflationary pressure as adoption grows. The distribution is structured to support long-term ecosystem growth, liquidity, and community incentives.

4.1 Token Distribution

Allocation	%	SIG Amount	Purpose
Uniswap Liquidity Pool	3%	300,000,000	Initial DEX liquidity — enables public trading from day one
Ecosystem & Platform	40%	4,000,000,000	Profit distributor, platform operations, B2B partnerships
Team & Founders	20%	2,000,000,000	Core team — 12-month lock, 24-month linear vest
Community & Marketing	20%	2,000,000,000	Airdrops, campaigns, community rewards, bounties
Reserve & Future Development	17%	1,700,000,000	Strategic reserve for future growth and opportunities

4.2 Vesting & Lock Schedule

Group	Lock Period	Vesting Period	Notes
Uniswap LP Tokens	12 months minimum	N/A	Locked via Team Finance or Unicrypt
Team & Founders	12 months	24 months linear	Monthly unlock after lock period
Ecosystem Tokens	None	Quarterly release	Based on milestones and community vote
Community Tokens	None	As campaigns run	Distributed per verified engagement
Reserve	Until needed	Board decision	Requires multi-sig authorization

4.3 Initial Market Parameters

Metric	Value	Notes
Launch Price (SIG/USD)	~\$0.0000027	Based on \$800 ETH / 300M SIG in pool
Initial Market Cap	~\$27,000 USD	Fully diluted at launch
Initial Liquidity	\$800 USD equivalent ETH	Provided by AI Shumookh Group
DEX Platform	Uniswap V2	Ethereum Mainnet
Trading Pair	SIG / ETH	Primary pair on launch

5. Technical Infrastructure

5.1 SIG Profit Distributor Smart Contract

The **SIG Profit Distributor** is a proprietary smart contract deployed on Ethereum Mainnet. It enables AI Shumookh Group to distribute profits directly to designated wallet addresses in an automated, transparent, and immutable manner.

- **Multi-Payee Support:** Distribute profits to multiple wallets in a single transaction
- **Configurable Shares:** Each payee receives a proportional share of total deposited SIG
- **Rescue Mechanism:** Authorized admin can recover misrouted funds from the contract
- **Full Transparency:** All distributions permanently visible and verifiable on Etherscan
- **Gas Efficient:** Optimized bytecode for minimal Ethereum gas costs on every operation
- **Browser Deployable:** Deploy new contracts directly from the dashboard using MetaMask/Ledger

5.2 M1 Tokenization System

The M1 Tokenization module converts real-world monetary assets into SIG tokens at a predefined exchange rate. This system bridges traditional finance with the blockchain ecosystem:

- EUR / USD amounts are converted to SIG equivalent at the current market rate
- SWIFT payment integration for international wire transfers (MT103, MT202)
- Automated settlement and reconciliation with full audit trail
- Webhook notifications for real-time transaction status updates
- Compliance-ready reporting with PDF export

5.3 Admin Dashboard & Management Platform

Module	Function
SWIFT Terminal	Send, receive, and search international SWIFT payment messages
Profit Distributor	Deploy contracts, set payees, deposit and distribute SIG profits
M1 Tokenization	Convert fiat assets to SIG tokens with automated settlement
Reports Module	Full transaction history, PDF export, filtering by date/type
Gas Invoice Manager	Track and settle Ethereum gas fees — Paid/Pending/Refund status
Settlement Payloads	Manage outgoing payment instructions to external banks
Route Manager	Direct payments to correct wallets across multiple networks

6. Uniswap Launch Plan

SIG will be officially listed on **Uniswap V2** — the leading decentralized exchange on Ethereum. The launch follows a structured approach to ensure stable initial liquidity and maximum community confidence through LP token locking.

6.1 Step-by-Step Launch Process

#	Step	Action Required
1	Preparation	Ensure wallet holds 300M SIG + \$800 ETH + ~\$50 extra for gas on Ethereum Mainnet
2	Access Uniswap	Navigate to app.uniswap.org and connect MetaMask or Ledger wallet
3	Select Pool Version	Go to Pool > Add Liquidity > select V2 (lower gas, simpler than V3)
4	Add Token Pair	Token A = ETH Token B = paste SIG address: 0xc2ac880e474c3576cc3afb7c560e402ce24d5b37
5	Set Amounts	Enter 300,000,000 in the SIG field — Uniswap auto-calculates the required ETH
6	Approve SIG Token	Click "Approve SIG" and sign the MetaMask/Ledger transaction (~\$10–20 gas)
7	Add Liquidity	Click "Add Liquidity" and sign — you receive LP tokens as proof of pool ownership
8	Lock LP Tokens	IMMEDIATELY lock LP tokens on Team Finance or Unicrypt for minimum 12 months
9	Verify Auto-Listing	SIG appears on DexScreener and DexTools automatically after the first swap
10	Apply for CoinGecko	Submit listing application at coingecko.com/en/coins/add (typically 2–4 weeks)

6.2 Post-Launch Exchange Roadmap

Platform	Type	Timeline	Action Required
DexScreener / DexTools	DEX Analytics	Immediate (after first trade)	Auto-listed — no application needed
CoinGecko	Data Aggregator	2–4 weeks after launch	Submit at coingecko.com/en/coins/add
CoinMarketCap	Data Aggregator	4–8 weeks after launch	Submit at coinmarketcap.com/request
Mid-tier CEX	Centralized Exchange	3–6 months after launch	Apply after consistent DEX volume established
Major CEX	Centralized Exchange	12+ months	Target after CoinGecko/CMC listing + trading volume

7. Marketing Strategy

The marketing strategy focuses on organic growth through community building, social media presence, and leveraging AI Shumookh Group's existing 14-year business reputation. All campaigns emphasize the real-world utility and institutional backing of SIG — differentiating it from speculative tokens with no underlying business.

7.1 Social Media — Launch Immediately (Free)

Platform	Handle / Name	Content Focus	Priority
Twitter / X	@SIG_Token	Daily updates, market data, partnerships, milestones	Critical
Telegram	SIG Token Community	Community chat, announcements, live AMA sessions	Critical
Instagram	@SIG_Token_Official	Visual content, company events, token milestones	High
LinkedIn	AI Shumookh SIG Token	Professional announcements, B2B opportunities	High
YouTube	SIG Token Official	Explainer videos, Profit Distributor tutorials	Medium
Reddit	r/CryptoMoonShots	Launch announcement, whitepaper link, AMAs	Medium
Bitcointalk	ANN Thread	Official announcement thread for crypto community	Medium

7.2 Content Calendar — First 30 Days

Week	Theme	Content
Week 1 (Pre-Launch)	Building Credibility	Introduce AI Shumookh Group: 14 years of operation, awards, offices in Dubai & London. Share the whitepaper. Build anticipation for launch date.
Week 2 (Pre-Launch)	Technology Story	Explain SIG token utility: Profit Distributor, M1 Tokenization, Ethereum blockchain. Post technical explainer videos and infographics.
Week 3 (Launch Week)	Launch Announcement	Launch Uniswap pool. Post contract address, Uniswap link, and DexScreener link across ALL channels simultaneously. Reddit + Bitcointalk post.
Week 4 (Post-Launch)	Community Growth	First Telegram AMA. Respond to community questions. Share trading stats. Submit CoinGecko application. Reach out to micro-influencers.

8. Project Roadmap

Phase 1

- ✓ Publish official whitepaper on website and crypto directories
- ✓ Launch all social media channels (Twitter, Telegram, Instagram, LinkedIn)
- ✓ Deploy Uniswap V2 liquidity pool with 300M SIG + \$800 ETH
- ✓ Lock LP tokens for 12 months on Team Finance or Unicrypt
- ✓ Submit CoinGecko and CoinMarketCap listing applications
- ✓ Launch SIG Profit Distributor smart contract
- ✓ Auto-list on DexScreener and DexTools after first trade

Phase 2

- ✓ Reach 1,000 SIG token holders milestone
- ✓ First official profit distribution to community via Profit Distributor
- ✓ CoinGecko listing achieved
- ✓ M1 Tokenization system fully operational for AI Shumookh business
- ✓ First B2B partnership announced that utilizes SIG
- ✓ Monthly AMA sessions and community events on Telegram

Phase 3

- ✓ CoinMarketCap listing
- ✓ Apply to mid-tier centralized exchange(s)
- ✓ Expand liquidity pool with additional ETH injection
- ✓ Launch SIG staking / yield program for long-term holders
- ✓ International marketing campaign targeting UAE, Gulf, and UK
- ✓ Explore mobile app for SIG wallet management

Phase 4

- ✓ Major CEX exchange listing
- ✓ Integration with AI Shumookh real estate tokenization module
- ✓ Gold-backed SIG product backed by Group's physical gold reserves
- ✓ Cross-chain bridge to Polygon and BNB Chain
- ✓ DAO governance allowing token holders to vote on proposals

9. Risk Disclosure

Investing in cryptocurrency tokens involves significant risk. Prospective purchasers should carefully consider the following risk factors before participating in the SIG token ecosystem.

Market Risk

The price of SIG tokens on Uniswap is determined purely by supply and demand. Token prices can be highly volatile, and investors may experience significant losses including total loss of investment.

Liquidity Risk

As a newly launched token, SIG may have limited trading volume and liquidity, making it difficult to buy or sell large amounts at a stable price without significant price impact.

Smart Contract Risk

While the Profit Distributor contract has been designed with security in mind, no smart contract is completely immune from vulnerabilities or unexpected behavior.

Regulatory Risk

Cryptocurrency regulations vary by jurisdiction and may change. Investors are solely responsible for ensuring their participation complies with local laws and regulations.

Concentration Risk

A significant portion of SIG tokens is held by the founding team. While vesting schedules are in place, large sales could impact market price.
