API Ingest Endpoint	POST https://api.alshumookh-pay.com/api/v1/payloads/ingest
Schema Endpoint	GET https://api.alshumookh-pay.com/api/v1/payloads/schema
Regulatory Status	Regulated Financial Services Entity — UAE Licensed
Classification	STRICTLY CONFIDENTIAL — Authorised Parties Only

MASTER WALLET DETAILS — OFFICIAL RECEIVING ADDRESSES

The following Master Wallet addresses are the sole official and authorised receiving addresses for all settlement transactions processed through the ALSHUMOOKH platform. **Any transfer directed to a different address has not been authorised by ALSHUMOOKH GLOBAL.**

MASTER WALLET — ERC-20 (Ethereum Mainnet)

0xBD682cfD8382a90adFdD6745780D3D7959c4d939

Network: Ethereum Mainnet — USDT ERC-20 | Chain ID: 1

Network	Ethereum Mainnet
Chain ID	1
Token Standard	ERC-20
Accepted Assets	USDT (ERC-20) ETH

Smart Contract (USDT)	0xdAC17F958D2ee523a2206206994597C13D831ec7
Min Confirmations	12 Confirmations required before finalization
On-Chain Verifier	Alchemy RPC — Ethereum Mainnet
Explorer	https://etherscan.io/address/0xBD682cfD8382a90adfDd6745780D3D7959c4d939
Wallet Type	Treasury / Master Wallet — Hardware Secured
Status	Active — Production

MASTER WALLET — TRC-20 (TRON Network)

TLARV2U9NzuK9QfzV3PQjwabQTGiEEqjTn

Network: TRON Network — USDT TRC-20

Network	TRON
Token Standard	TRC-20
Accepted Assets	USDT (TRC-20) TRX
Smart Contract (USDT)	TR7NHqjeKQxGTCi8q8ZY4pL8otSzgJLj6t
Min Confirmations	19 Confirmations required before finalization
On-Chain Verifier	TRON Grid API
Explorer	https://tronscan.org/#/address/TLARV2U9NzuK9QfzV3PQjwabQTGiEEqjTn
Wallet Type	Treasury / Master Wallet
Status	Active — Production

FORMAL WALLET OWNERSHIP DECLARATION

We, **Alshumookh Global Banking Financing and Credit**, formally declare and confirm that the above wallet addresses are the sole authorised receiving addresses for all settlement transactions. These wallets are owned and controlled exclusively by ALSHUMOOKH GLOBAL. This declaration is made by the undersigned authorised officer and is binding as of the date stated on this document.

SYSTEM TECHNICAL CAPABILITIES & PLATFORM PROFILE

The ALSHUMOOKH platform is a proprietary institutional-grade financial transaction management system operating on a dedicated production domain. All modules below are active and verified.

Module	Description	Status
REST API Engine	HTTPS REST API — OAuth2, HMAC-SHA256, JSON payloads, real-time webhooks	Active
OTC Quote System	Live EUR/USDT rate fetching, quote approval, rate locking, OTC desk	Active
Fiat Deposit Processing	EUR via SEPA, SWIFT, Local Transfer — full AML validation pipeline	Active
Master Wallet Settlement	Direct Master Wallet to Master Wallet USDT settlement — ERC-20 & TRC-20	Active
Smart Contract Engine	HSM/MPC-secured contract execution — ratio-based automated distribution	Active
Profit Distributor	Automated distribution engine — configurable ratio splits per transaction	Active
Blockchain Infrastructure	On-chain tracking, confirmation monitoring, TX Hash verification	Active
M1 Tokenization Module	EUR → USDT tokenization pipeline — full on-chain token lifecycle	Active
NOWPayments Gateway	Crypto payment gateway — payment links + IPN webhooks	Active
MoonPay Commerce	PCI-DSS compliant fiat-to-crypto card onramp	Active
SWIFT Terminal	Built-in SWIFT message composer and transmitter to external APIs	Active
Wallet Verification OTP	SMS + Email OTP verification for all sensitive wallet operations	Active
Settlement Reporting	Automated payload generation, audit reports, secure file transfer	Active
WhatsApp Notifications	Automated alerts via Twilio for all transaction events	Active
Admin Dashboard	Multi-section portal: Payloads, Clients, Reports, Transfers, Top-Up	Active

3.1 Active Security Controls

Security Layer	Technical Detail	Status
HMAC-SHA256 Signing	X-Signature header — enforced per client on all API calls	Active
OAuth 2.0	Client Credentials grant — bearer tokens, configurable expiry	Active
JWT / JWS Verification	Detached JWS RS256/HS256 — payload hash in claims	Active
mTLS Certificate	X-Client-Cert-Fingerprint verified at application layer	Active
Replay Protection	X-Timestamp ±5 min window + Idempotency-Key enforced	Active
WAF & Rate Limiting	IP auto-ban, UA classification, path-probe detection	Active
IP Whitelisting	Per-client IP ranges enforced at gateway layer	Active

2FA / Google Auth	TOTP two-factor authentication on all admin accounts	Active
OTP Verification	SMS + Email OTP for wallet operations	Active
TLS 1.3 + HSTS	Full transport encryption, HSTS, CSP, security headers	Active

IV API INTEGRATION SPECIFICATIONS

Base URL	https://api.alshumookh-pay.com
Ingest Endpoint	POST https://api.alshumookh-pay.com/api/v1/payloads/ingest
Schema Endpoint	GET https://api.alshumookh-pay.com/api/v1/payloads/schema
OAuth2 Endpoint	POST https://api.alshumookh-pay.com/api/v1/oauth/token
Reconcile Endpoint	POST https://api.alshumookh-pay.com/api/v1/admin/reconcile
Webhook Events URL	POST https://api.alshumookh-pay.com/webhooks/transfer
Protocol	HTTPS — TLS 1.3 HSTS enforced
Content-Type	application/json
Auth Method	OAuth 2.0 Client Credentials + HMAC-SHA256 Payload Signing
Auth Header	X-API-Key:
Client Header	X-Client-ID:
Signature Header	X-Signature: HMAC-SHA256(timestamp + body)
Timestamp Header	X-Timestamp: ISO-8601 UTC — e.g. 2026-08-02T10:00:00Z
Idempotency Header	Idempotency-Key:

4.1 Sample JSON Payload — Master Wallet Transfer

```
{ "transaction_id": "TXN-MW-2026-001", "sender_name": "Sender Entity Name", "amount_eur":
1000000.00, "asset": "USDT", "network": "ERC20", "recipient_wallet":
"0xBD682cfD8382a90adfDd6745780D3D7959c4d939", "wallet_type": "MASTER_WALLET",
"transfer_type": "MASTER_TO_MASTER", "reference": "REF-MW-2026-001", "timestamp":
"2026-08-02T10:00:00Z" }
```

VI NETWORK SPECIFICATIONS & TRANSACTION PARAMETERS**6.1 Supported Networks**

Parameter	Ethereum ERC-20	TRON TRC-20
Network Name	Ethereum Mainnet	TRON Mainnet
Chain ID	1	N/A
Asset	USDT (ERC-20)	USDT (TRC-20)
Master Wallet	0xBD682cfD8382a90adfDd6745780D3D7959c4d939	TLARV2U9NzuK9QfzV3PQjwabQTGiEEqjTn
USDT Contract	0xdAC17F958D2ee523a2206206994597C13D831ec7	TR7NHqjeKQxGTCi8q8ZY4pL8otSzglJ6t
Min Confirmations	12 Blocks	19 Confirmations
Avg Block Time	~12 seconds	~3 seconds
Gas / Fee	ETH (Gas) — varies by network	TRX (Bandwidth/Energy)
Explorer	etherscan.io	tronscan.org
RPC Provider	Alchemy — Ethereum Mainnet	TRON Grid API
Status	Active — Production	Active — Production

6.2 Transfer Limits & Parameters

Transfer Type	Master Wallet to Master Wallet — Direct On-Chain
Accepted Assets	USDT ERC-20 USDT TRC-20
Minimum Transfer	No minimum — subject to AML review for amounts below \$10,000
Maximum Transfer	No maximum — institutional volumes accepted — subject to AML clearance
Max Beneficiary Wallets	5 (Five) per Payment Gateway Limit
Settlement Time	ERC-20: ~2-3 minutes TRC-20: ~1 minute post-confirmation
Transfer Method	Direct on-chain transfer — no custody, no intermediaries
Availability	24/7/365 — platform operates continuously
Live Session	Zoom / Google Meet available upon request for live transfer monitoring

VII COMPLIANCE, KYC & REGULATORY FRAMEWORK

KYC / AML Policy	Full AML/CTF screening, sanctions check, source-of-funds review — Active
Sanctions Screening	OFAC, EU, UN, UK HMT sanctions databases — automated daily update

Transaction Monitoring	Real-time monitoring with automated alert engine — Active
Fraud Detection	ML-based fraud detection layer integrated with core platform
License	887065 — Dubai DED Financial Services
Data Protection	GDPR-aligned data handling and retention policies
Audit Trail	Immutable logs — TX Hash, timestamps, wallet addresses, amounts per payload
Record Retention	Minimum 5 years per UAE regulatory requirements
Confidentiality	All transaction data is strictly confidential — authorised parties only
Reporting	Regulatory reports filed as required by applicable AML/CTF regulations

7.1 Required Documents from Counterparty

Document	Purpose	Timing
CIS (Client Information Sheet)	Entity + wallet details verification	Before first transfer
Certificate of Incorporation	Corporate identity verification	Before first transfer
Proof of Address (company)	Registered address confirmation	Before first transfer
Authorised Signatory Passport	Personal identity of signing officer	Before first transfer
Source of Funds Declaration	AML compliance — origin of transferred funds	Before each transfer
Master Wallet Ownership Letter	Confirmation wallet is owned by entity	Before first transfer
DOA — Deed of Agreement	Legal binding of terms and distribution ratio	Before execution
