4. Integration Assessment — System Compatibility Confirmed

- The Alshumookh Pay API successfully received, parsed, and acknowledged the inbound ISO 20022 payload confirming bilateral system compatibility. API response status: payload_received with parsed flag set to true.
- Your institution BIC CBSWCHZZXXX has been registered as a verified Nostro correspondent within our settlement network. TLS connection certificate and server verification (DCB216470 / 149.174.223.155) are on record.
- This integration test confirms that Digital Commercial Bank Ltd. meets all technical prerequisites for live transaction processing through the Alshumookh Pay ISO 20022 gateway.

5. Next Steps — Partnership Activation and Volume Authorization

- Based on the successful completion of the penny test (EUR 102.00), we hereby confirm readiness to proceed to the next phase of the integration, including volume testing and live transaction authorization pending completion of bilateral agreement formalities.
- We invite your team to schedule a technical coordination call with our Integration Division to finalize routing parameters, settlement windows, and volume thresholds applicable to your institution.
- All subsequent transactions must be submitted via the approved ISO 20022 technical channel through the Alshumookh Pay API endpoint. Payloads submitted outside this channel will not be processed or acknowledged.
- ALSHUMOOKH Global Banking Finance & Credit looks forward to a productive and technically sound partnership with Digital Commercial Bank Ltd. and affirms its commitment to professional, compliant, and transparent settlement operations.

Integration Test Status: CONFIRMED SUCCESSFUL — Digital Commercial Bank Ltd. is hereby approved to proceed to Phase 2 live transaction testing through the Alshumookh Pay ISO 20022 gateway, subject to execution of the bilateral partnership agreement.

Yours faithfully,

ALSHUMOOKH Global Banking Finance & Credit
