TRANSACTION DETAILS

Transaction Reference:	VAFM1API20260609A
File ID:	VAF-M1-FILE-20260609-001
Payload Type:	M1_FUND_INBOUND
Declared Amount:	EUR 23,085,000.00
Submission Date:	09 June 2026
Settlement Date (Declared):	09 June 2026
Current Status:	RETURNED — NON-TRANSFERABLE

REASONS FOR RETURN

- PRECHECK Environment — Not a Production Submission**

The submitted payload carries environment classification 'PRECHECK'. The ALSHUMOOKH platform exclusively processes payloads submitted under 'PRODUCTION' environment status.
- No On-Chain Fund Transfer Confirmed**

No USDT or equivalent transfer has been detected from the declared sender wallet (0x2297d85BC9b51323595E9B6029D0b47ca297f739) to the ALSHUMOOKH treasury address.
- Missing Production Transaction Hash (TX Hash)**

A valid on-chain transaction hash confirming fund movement is mandatory for settlement. No such hash was provided in the submitted payload.
- Tokenized USDT Amount Not Finalized**

The field 'total_tokenised_value_usdt' contains placeholder text only: 'FINAL USDT AMOUNT TO BE CALCULATED...' — no actual value was specified.
- Non-Transferable Status**

Due to the above deficiencies, the transaction cannot be tokenized, settled, or transferred through the ALSHUMOOKH platform in its current form.

REQUIRED ACTIONS TO RESUBMIT

- Resubmit the payload with environment: PRODUCTION.
